Laravel Developer

Description
Are you a passionate Laravel Developer looking to take your skills to the next level? **FinTax24** is hiring a **Laravel Developer** for our development team in **Palitana**. Whether you're a fresher with Laravel knowledge or an experienced PHP Laravel Developer, this role offers a chance to work on real-time applications, APIs, and scalable web platforms.

At FinTax24, we believe in building robust digital platforms for compliance, finance, and automation. This is a great opportunity for someone who thrives in a problem-solving environment and wants to work with a team that values clean code and performance.

Responsibilities

- Develop, test, and maintain dynamic web applications using **Laravel framework**
- Work with front-end developers to integrate backend logic with UI components
- Build and maintain RESTful APIs and third-party integrations
- Optimize applications for speed and scalability
- Troubleshoot, test, and maintain the core product software to ensure strong functionality
- Collaborate in Agile environment to deliver efficient project outcomes
- Write clean, modular, and well-documented code
- Participate in code reviews and continuous improvements

Qualifications

- Bachelor's degree in Computer Science, IT, or equivalent field
- Strong understanding of **Laravel Framework** and **PHP OOP concepts**
- Familiarity with **MySQL, JavaScript, HTML, CSS**, and **AJAX**
- Experience with **REST APIs**, **JWT**, and third-party APIs is a plus
- Knowledge of version control tools like **Git**
- Experience with **Laravel Blade**, **middleware**, **queues**, and **scheduling** is an advantage
- Freshers with solid Laravel knowledge are welcome to apply
- Strong problem-solving and communication skills

Job Benefits

- **Competitive Salary:** Based on skills and experience
- **Growth Opportunity:** Learn and grow with modern tech stack & real-world projects
- **Mentorship:** Guidance from senior Laravel & full-stack developers
- **Supportive Work Culture:** Friendly team with strong collaboration
- **Flexible Environment:** Open to remote/hybrid option for the right candidate
- **Performance-Based Incentives:** Earn bonuses as per contribution
